

REGIONAL DISTRICT OF CENTRAL OKANAGAN

BYLAW NO. 1513

A bylaw providing for regulating and managing the Water systems of the Regional District of Central Okanagan located within Electoral Areas East and West.

WHEREAS the Regional District of Central Okanagan is authorized by separate bylaws to provide for the operation, maintenance, and improvements of various water systems located within the Regional District of Central Okanagan;

AND WHEREAS it is deemed necessary and expedient to establish and standardize regulations for the management of the said water systems and the terms and conditions upon which water services may be provided;

NOW THEREFORE, THE REGIONAL BOARD OF THE REGIONAL DISTRICT OF CENTRAL OKANAGAN, IN OPEN MEETING ASSEMBLED, ENACTS AS FOLLOWS:

1 PURPOSE

- 1.1 The purpose of this Bylaw is to establish regulations under which water will be provided to any parcel located within a Regional District of Central Okanagan water system service area.

2 APPLICATION

- 2.1 This Bylaw shall apply to the Owner or occupier of all parcels located within a Regional District water system service area or the Owner or occupier of all parcels connected to a Regional District water system.

3 SEVERABILITY

- 3.1 If any section, subsection, sentence, clause, or phrase of this Bylaw is deemed to be invalid by the decision of any court of competent jurisdiction, the invalid portion shall be severed and the decision that it is invalid shall not affect the validity of the remainder of the bylaw.

4 DEFINITIONS

In this Bylaw, unless the context requires otherwise:

“asset renewal fee” means a fee imposed to assist with the partial replacement of water system works as part of infrastructure management and may be imposed regardless of whether or not a property or a premises is connected to a water system.

“backflow” means the flow of water or other substances back into any plumbing system connected to the works.

“connection fee” means a fee for applying to connect to a water system.

“contaminant” means any substance or matter in water which may render the water unfit for drinking according to guidelines and regulations of the Province of British Columbia.

“cross connection” means any connection whereby the water system is connected, directly or indirectly, to any device or source which may result in backflow or contaminants entering into any plumbing connected to the water system including bypass arrangements, jumper connections, removable sections, swivel or changeover devices, or any other temporary, or permanent connecting arrangements.

“disconnect” or **“disconnection”** means the complete removal of a water service connection.

“Owner” shall be interpreted as defined in the Local Government Act as amended from time to time.

“parcel” means any lot, block, or other area in which land is held or into which land is subdivided but does not include a highway.

“penalty” or **“penalties”** means applicable fines or actions where a person contravenes the provisions of this bylaw. Every day during which there is an infraction of this Bylaw shall constitute a separate offence.

“premises” means any residence, building, or structure located on a property.

“private service works” means pipes, fittings, fixtures and other appurtenances on private property, not installed or owned by the Regional District, and is used to convey water from the water system on the property or premises.

“property” means any parcel contained within the boundaries of a Regional District water system service area.

“Regional Board” means the Board of the Regional District of Central Okanagan.

“Regional District” means the Regional District of Central Okanagan.

“Regional District Officer” means the Regional District employee, or designate, assigned the duties of managing the engineering services department.

“sprinkle” or **“sprinkling”** means the application or distribution of domestic water on a property, premises, lawn, driveway, or boulevard by sprinkling or spraying and does not include drip irrigation operating at 172 kilopascal (25 pounds per square inch) or less and emitted directly to the root zone of the plant material.

“turn on” means the opening of the shut-off valve located in a standpipe at or near where the water service connection crosses the property line.

“turn off” means the closing of the shut-off valve located in a standpipe at or near where the water service connection crosses the property line.

“user fee” means a fee imposed for the distribution of water.

“utility corridor” means a parcel of land registered by the Regional District for the purpose of accessing the utility for operation and maintenance.

“wasteful” means no useful purpose as determined by the Regional District Officer.

“works” means all pipes, valves, hydrants, fittings, water meters, pumps, intakes, reservoirs and all appurtenances.

“water service connection” means a pipe connected to a main water supply line and extending to a property line for the purpose of conveying water and includes pipes, shut-off valve and other appurtenances.

“water meter” means an apparatus or device used for measuring and reporting the volume of water passing through it.

“water meter pit” means a chamber constructed underground, which is used to install a water meter or approved backflow preventer.

“water system” means any water supply, distribution system and works that the Regional District is authorized by bylaw or by Ownership or by agreement, to operate, maintain and improve.

Unless otherwise defined herein, all words or expressions used in this Bylaw shall have the same meaning assigned to them as like words or expressions contained in the *Local Government Act*, the *Interpretation Act*, the BC Building Code and Regional District Bylaws.

5 COMPLIANCE WITH BYLAW

- 5.1 No person shall connect to or interfere in any way with the water system except in accordance with the provisions of this Bylaw.
- 5.2 Should any person contravene the provisions of this Bylaw, and such contravention causes or may cause damage to the water system, the Regional District may make any repairs and take whatever remedial action necessary to limit the extent of the damage, and the cost to the Regional District of so doing may be recovered by the Regional District as if the same were a debt due the Regional District. The amount of such cost, when certified by the Regional District Officer, if not before paid, shall be entered by the Regional District's Collector in the Collector's Roll next prepared after the receipt of the certificate and such amount may be recovered with interest at such rate as may be authorized from time to time by the Local Government Act, in like manner as municipal taxes.

6 OWNER'S LIABILITY

- 6.1 The Owner shall be liable for any contravention of this Bylaw arising on the parcel to which the water service connection is provided, whether the contravention is actually committed by the Owner or by a third party renting, leasing, or having access to the property.

7 OWNER'S RESPONSIBILITIES

7.1 Every Owner shall:

- a) Ensure that the terms and conditions of this Bylaw are not contravened on their property;
- b) Install, maintain, repair or replace as necessary all defective private service works which are leaking or are otherwise not in good repair such that they are a cause of waste of water, at their sole cost;
- c) Give immediate notice to the Regional District of any failure or problem with the water system of which the Owner becomes aware;
- d) Protect all private service works and the water meter from freezing, heat or other severe conditions;
- e) Close the private service works main water supply valve when the premises are vacant; and
- f) Pay all costs, rates, charges, fees, and penalties that may be imposed pursuant to this Bylaw.

7.2 Consumers using water for processes which require a guaranteed supply and pressure, or a critical standard of purity shall, at their expense, provide such equipment as necessary to provide the required standards and to protect such equipment from damage due to variations in or cessation of the Regional District water supply.

7.3 Where the water service connection on a premises is identified by the inspector as having a high risk of backflow, the Owner shall install, at his or her own expense, air gaps or backflow prevention devices which conform with CSA B64.10 "Selection and Installation of Backflow Preventers" and in the opinion of the Regional District Officer, are sufficient to prevent backflow from the premises and from any fixtures on the premises.

7.4 The Owner and occupant must ensure that:

- a) Air gaps and backflow prevention devices are installed in compliance with the BC Building Code and maintained in good operating condition at all times;
- b) The backflow prevention device is tested before the anniversary of the date it has been installed, cleaned, repaired, relocated or tested previously;
- c) The test required by clause b) is conducted by an individual currently certified in the Province of British Columbia to competently conduct tests of backflow prevention devices; and
- d) The results of the test required by clause b) are received by the Regional District within 30 days after the test has been conducted and if the results are not received by the Regional District, the Regional District may conduct or coordinate the test at the expense of the Owner.

7.5 Where the Regional District Officer determines that a cross connection or backflow prohibited by this Bylaw is an immediate risk to the water system or any person, or if an Owner fails to correct any cross connection or backflow as required by this Bylaw, the Regional District may order and undertake, at the expense of the Owner, the turning off or disconnection of the water system to the property without notice until such time as the cross connection or backflow is corrected.

8 INTERFERENCE WITH THE WATER SYSTEM

- 8.1 No person other than the Regional District Officer or a contractor authorized by the Regional District shall:
- a) enter into or work upon the water system;
 - b) connect or disconnect a water service connection, line, pipe, or other appurtenance to the water system;
 - c) uncover, cover, damage, injure, tamper with, alter, modify, maintain, operate or interfere with the water system;
 - d) obstruct or impede or impair free, clear and easy access to any hydrant, standpipe, valve or other fixture or appurtenance forming part of the water system; or
 - e) block the access of a utility corridor or by any means change or obstruct the utility corridor.

9 WATER SERVICE CONNECTIONS

- 9.1 Where an Owner applies to connect to a Regional District water system and the water service connection must be installed in order to service the property the Owner shall be responsible for all capital costs pertaining to the installation of the water service connection as set out in Schedule "A".
- 9.2 Additional water service connections and their locations must be approved by the Regional District Officer.
- 9.3 Each parcel shall be limited to one water service connection to the property line except:
- a) each residential unit on a property zoned for multiple dwellings or dwelling units shall each have a separate water service connection.
 - b) where limitations in site servicing, development restrictions, future subdivision, or proposed stratification exist, the Owner may make application for additional water service connections.
- 9.4 The Regional District reserves the right to refuse to install water service connections under frost conditions.
- 9.5 Connections to the water system must be made through a pressure reducing valve, which is to be located within the premises, and connected directly to the water system. The pressure reducing valve is to be installed prior to the residential water distribution works and after the water meter, and is to be installed and maintained by the Owner.
- 9.6 If the Regional District deems that a premises is connected to the water system and has unauthorised works the Owner may be liable to penalty for breaching this Bylaw as set out in Schedule "A", the water service may be shut off or disconnected, or a water meter pit and pit water meter may be installed at the expense of the Owner.

10 WATER SYSTEM EXTENSIONS

- 10.1 Where an Owner applies to connect to a Regional District water system and the water system must be extended to service the property, the Owner shall be responsible for all costs pertaining to the extension of the water system as set out in Schedule "A", including all required security deposits.
- 10.2 The Regional District reserves the right to refuse to install water system extensions under frost conditions.

11 APPROVAL TO CONNECT

- 11.1 Any Owner of real property or their authorized agent wishing to connect any building or structure to a Regional District water system shall make a building permit application for a water service connection to the Regional District and pay the applicable fees and charges set out in Schedule "A" of this Bylaw for that connection.
- 11.2 Applications for turning on the supply of water from the water system shall be made in writing to the Regional District and shall be accompanied by the fee set out in Schedule "A" of this Bylaw.
- 11.3 All applications for connection shall state the use of the premises for which the water system is to be connected, the number of dwelling units, the legal description and location of the property or premises to which the connection is to be made, and any other information that may be necessary to accurately assess the fees and charges applicable to the connection.
- 11.4 Fees and charges are payable when the building permit application is made.
- 11.5 Approval for connection to the water system shall not be granted until the Owner or his agent:
- a) Submits an application for a building permit;
 - b) Pays all applicable fees and charges;
 - c) Complies with the provisions of this bylaw, and any other applicable Regional District Bylaws; and
 - d) Complies with the BC Building Code.
- 11.6 The Regional District may inspect any works undertaken to determine compliance with a building permit, this and any other Regional District bylaw, and the BC Building Code, and may accept or reject the work for the purposes of Section 11.3 of this Bylaw.
- 11.7 Any person who applies to the Regional District to turn on the supply of water from the water system for any new building shall provide confirmation that the private service works were satisfactorily tested, inspected and approved by the Regional District, including satisfactorily inspected for connections and cross connections.
- 11.8 Where a security deposit is required by Schedule "A" prior to the completion of any works, the applicant will be reimbursed any remaining balance of the security deposit upon completion of the works. If the security deposit is insufficient to cover the costs of the works, then the remaining amount shall be added to the Owner's first invoice, and if unpaid shall be recoverable in accordance with Section 14.6 of this Bylaw.

12 TURN OFF OR DISCONNECTION

- 12.1 Applications for turning off or disconnecting the supply of water from the water service connection shall be made in writing to the Regional District and shall be accompanied by the fee set out in Schedule "A" of this Bylaw.
- 12.2 The Regional District may turn off the water service connection to any property or premises for any of the following reasons:
- a) maintaining, repairing, renovating, replacing, disinfecting or otherwise operating the water system;
 - b) excessive use of water, as determined by the Regional District Officer, that may put the water system at risk, including but not limited to exceeding water licence restrictions or consumption restrictions;
 - c) wasteful use of water;
 - d) violation of any water use regulations or provisions of this Bylaw;
 - e) non-payment of costs, rates, charges, fees, and/or penalties under this Bylaw;
 - f) failure to repair or replace defective pipes, fittings, valves, tanks or appliances which are leaking or are otherwise not in a good state of repair and which are or may become a cause of waste of water; or
 - g) where an emergency threatens the safety of the water system or the public.
- 12.3 The Regional District may disconnect the water service connection to any property or premises for any of the following reasons:
- a) approval of a request to discontinue water service to a property;
 - b) violation of a provision of this Bylaw; or
 - c) where the property or premises are deemed to be inaccessible and such inaccessibility is not remedied within 90 days of giving notice to the Owner that the property or premises is inaccessible.
- 12.4 An Owner whose water service has been turned off or disconnected for non-compliance with this Bylaw will be subject to a water service turn off fee or disconnection fee and a further service charge to restore the connection in accordance with Schedule "A".
- 12.5 The Regional District shall not be liable for any damages that may result from the turn off or disconnection of the water service connection or the restriction of water use pursuant to this section.
- 12.6 Where the water service connection is to be turned off:
- a) for non-payment of costs, rates, charges, fees, and/or penalties under this Bylaw, the District will give 30 days' advance notice to the Owner;
 - b) for maintenance, repair, renovation, replacement, disinfection or other operation of the water system, the Regional District will give 2 working days' advance notice for scheduled work;
 - c) for any other reason, the Regional District will give 7 days' advance notice to the Owner;
 - d) except that no advance notice will be given in the case of an emergency, and no notice will be given in any event or where safety of life or property is at risk.

- 12.7 Where the water supply is to be turned off or disconnected for reason of non-compliance with any provision of this Bylaw, except the non-payment of costs, rates, charges, fees or penalties, the Regional District will give the person affected the opportunity to make representations to the Regional Board in respect of such non-compliance.
- 12.8 Notice under Section 12.6 of this Bylaw may be given by one or more of the following:
- a) posting notice on the property or premises;
 - b) providing notice on an invoice for water;
 - c) mailing notice to the address of the property or premises.
- 12.9 The Regional District is not responsible for any notice failing to reach an Owner or other consumer of water prior to the turn off or disconnection of water.

13 WATER METERS

- 13.1 All water service connections shall include a water meter.
- 13.2 Only one water meter shall be installed for all of the land shown on a strata plan that receives the supply of water from the water system from the same water service connection, except land shown on a bare land strata plan.
- 13.3 An Owner will be charged for the water meter when a building permit application is received for a connection to a water system. All water meters will be supplied by the Regional District and shall remain the property of the Regional District.
- a) Pit water meters are mandatory for all water service connections, unless otherwise approved by the Regional District Officer.
 - b) No drain valve, water bypass, branch line or any other type of fixture through which water may be taken shall be located upstream of a water meter, unless otherwise necessary for the operation of the water system, and approved by the Regional District Officer.
 - c) Pit water meters will be installed in a water meter pit at the water service connection by the Regional District or its contractor. The water meter pit will also be installed by the Regional District or its contractor and remain the property of the Regional District
 - d) No person shall tamper with any water meter so as to alter the amount of water registered thereby.
 - e) If the Regional District deems that a premises is unmetered or is inaccessible to install a water meter, repair a water meter, or to obtain a meter read due to gates, unrestrained dogs or any other reason, the Owner may be liable to penalty for breaching this Bylaw as set out in Schedule "A", the water service may be shut off or disconnected, or a water meter pit and pit water meter may be installed at the expense of the Owner.
 - f) The Regional District shall maintain and repair all water meters when rendered unserviceable through reasonable wear and tear; however if any water meter is damaged, broken, lost or removed from the property, the Owner shall be liable for the cost of a replacement water meter, in an amount set out in Schedule "A" of this Bylaw.
- 13.4 If any water meter stops, sticks or fails to indicate correctly the quantity of water which is passing or which has passed through it, the Regional District shall be entitled to charge for such water according to the average consumption of the 12 months immediately preceding the date upon which such meter was last found to be in good order.

- 13.5 Water service connections may have an in-home water meter installed, if approved by the Regional District Officer. In-home water meters will be installed in accordance with standard drawing M-1 as found in Schedule "C".
- a) An existing water service connection with an in-home water meter may require installation of a water meter pit and pit water meter at the expense of the Owner at time of building permit or at the discretion of the Regional District Officer.

14 FEES & CHARGES

- 14.1 Every Owner of property and/or premises situated within the service boundary of a Regional District Water Service Area shall pay to the Regional District the fees and charges established in accordance with this Bylaw, as prescribed in Schedule "A".
- 14.2 Every Owner of property and/or premises situated within the service boundary of a Regional District Water Service Area shall pay to the Regional District User fees and Charges established by separate bylaw for the applicable service area.
- a) User fees shall apply to all parcels connected to the water system where the water service is turned on and will continue to apply until the parcel is disconnected from the water system or the Regional District Officer approves termination of applicable User fees.
- b) An Owner may apply to the Regional District Officer for a one-time full or partial exemption of the consumption based user fees in the event of an emergency or unexpected usage due to failure of a portion of private service works or similar occurrence.
- 14.3 Every Owner of property and/or premises situated within the service boundary of a Regional District Water Service Area shall pay to the Regional District the Asset renewal fees and Charges established by separate bylaw for the applicable service area.
- a) Asset renewal fees shall apply to all parcels, vacant or otherwise, and shall commence immediately upon registration of a property in the Land Title Office.
- 14.4 Fees will be billed quarterly or other established interval and all fees shall be due and payable 30 days after the billing date.
- 14.5 A late payment penalty of four percent (4%) will be assessed each quarter (compounded quarterly 16.99% per annum) on all outstanding balances accrued under this Bylaw or its predecessors and not paid by the due date.
- 14.6 The costs, rates, charges, fees and/or penalties required to be paid by this Bylaw shall form a charge against the parcel serviced, and if such costs, rates, charges, fees and/or penalties are unpaid on December 31st of the year in which they become payable, they shall be entered by the Regional District's Collector in the Collector's Roll next prepared, and transferred to the tax roll in the next succeeding year as arrears of taxes against the parcel from which they arose, and such amount may be recovered with interest at such rate as may be authorized from time to time by the Local Government Act, in like manner as municipal taxes. Payments must be received by December 15th to ensure adequate processing time at year end.

- 14.7 Any connection fees, fees for additional connections or extensions, and water meter fees must be paid 10 days prior to installation or connection to the water system.
- 14.8 The water meter fees set out in Schedule "A" include the water meter and water meter setting fittings, all of which will be supplied and owned by the Regional District.
- 14.9 The pit water meter charge in Schedule "A" also includes installation of the meter in an Owner supplied and installed water meter pit.

15 PROHIBITIONS

- 15.1 Pumps, boosters, or other devices that have the effect of increasing water pressure in the water service connection to a pressure that is higher than the normal water pressure in the water service connection are prohibited without a backflow prevention device.
- 15.2 No person shall sell any water obtained from the water system, allow any water to be used on a parcel other than the parcel for which the water service connection has been provided, or permit any water to be taken from the parcel for which the water service connection has been provided.
- 15.3 No person will introduce, or allow to be introduced, any contaminants or pollutants into a Regional District water system.
- 15.4 No person shall connect, cause to be connected, or allow to remain connected any piping fixture, fitting, container, appliance, or cross connection that could cause or allow drinking water quality, the water system, or a private service to become contaminated, degraded or polluted in any way.
- 15.5 No person shall connect, or cause to be connected, and the Owner or occupant of the premises must not permit to be connected, a pipe, fixture, fitting, container or appliance in a manner which, under any circumstances, permits or facilitates backflow into the Regional District's water system.
- 15.6 No person shall demolish, move, remove or substantially alter any building connected to the water system, without first applying to the Regional District to turn off or disconnect the water service connection to that property and paying the applicable fee set out in Schedule "A".

16 OUTDOOR WATER USE RESTRICTIONS

- 16.1 The Regional District may, at its discretion, and whenever the public interest so requires, suspend or limit the consumption of water from the water systems, or regulate the hours or days of use, or may further prescribe the manner in which such water may be used.
- 16.2 The following sprinkling hours apply at all times, subject to sprinkling restrictions:
 - a) Properties equipped with an automated time clock sprinkler system may only sprinkle between the hours of 12:00 midnight to 6:00 a.m. on the days permitted by the sprinkling restrictions as identified below.
 - b) Properties equipped with only manually controlled sprinkling systems, including those

attached to outside taps, may only operate from 6:00 a.m. to 11:00 a.m. and from 6:00 p.m. to 12:00 midnight on the days permitted by the sprinkling regulations as identified below.

- c) A person using a watering can or hose with a spring-loaded nozzle may hand water any time of the day.

16.3 Sprinkling Restrictions – Sprinkling Days

Stage 1 Alternate Days Sprinkling:		
Effective		September 16th to June 15th, unless Notice of Stage 3 or 4 in Effect
Even numbered addresses:		Sprinkling is only permitted on Even Calendar Days
Odd numbered addresses:		Sprinkling is only permitted on Odd Calendar Days
Stage 2 Twice a Week Sprinkling:		
Effective		June 16th to September 15th, unless Notice of Stage 3 or 4 in Effect
Even numbered addresses:		Sprinkling is only permitted on Saturdays & Tuesdays
Odd numbered addresses:		Sprinkling is only permitted on Sundays & Wednesdays
Stage 3 Restriction Period - Once a Week Sprinkling:		
Effective		Upon Notice Issued by Regional District Officer
Even numbered addresses:		Sprinkling is only permitted on Saturdays
Odd numbered addresses:		Sprinkling is only permitted on Sundays
Stage 4 Restriction Period – No Sprinkling		
Effective		Upon Notice Issued by Regional District Officer

- a) During a Stage 3 sprinkling restriction period there shall be no outdoor water use for the following purposes:
- to fill a swimming pool, hot tub, garden pond, or decorative fountain;
 - wash a vehicle or boat with water; or
 - wash driveways or sidewalks or patios.
- b) During a Stage 4 sprinkling restriction period there shall be no outdoor water use for any purpose.

16.4 The following operations or activities that rely on a steady supply and use of water are automatically exempt from any sprinkling restrictions:

- nurseries;
- farms;
- orchards;
- vineyards;
- washing exterior building surfaces, including windows, parking lots, driveways or sidewalks, prior to the application of a product such as paint, preservative, or stucco, or preparation of a surface prior to paving or repainting or bricklaying, or if required by law to comply with health and safety regulations.

16.5 The following sprinkling restriction exemptions apply; however, there are no exemptions during a Stage 4 Restriction Period:

- a) A person may water new trees and shrubs during installation and for the following 24 hours, but after that exemption period watering must comply with the sprinkling restrictions.
- b) A person may sprinkle new sod during the sprinkling hours set out in Section 16.2 for a period of 21 days after installation, but after the exemption period must comply with the sprinkling restrictions.
- c) A person may sprinkle newly seeded lawn during the sprinkling hours set out in Section 16.2 for a period of 49 days or until growth is established, whichever is less, but after the exemption period must comply with the sprinkling restrictions.

16.6 No person shall allow water to flow wastefully to parking lots, driveways, sidewalks, roadways or structures while sprinkling.

17 HYDRANT USE PERMIT

17.1 The Regional District may issue Hydrant Use Permits on terms and conditions outlined in this section and Schedule "B".

17.2 The Regional District may issue a Hydrant Use Permit for the purposes of:

- a) construction road compaction;
- b) construction dust control;
- c) construction water main testing;
- d) utility line flushing;
- e) wellpoint dewatering installation;
- f) road sweeping; or
- g) tanker truck filling.

17.3 The Regional District may refuse to issue a Hydrant Use Permit where such issuance may result in a risk to the water system, in the sole discretion of the Regional District Officer.

17.4 The Regional District, in issuing a Hydrant Use Permit, may impose terms and conditions regarding the use of the hydrant as follows:

- a) the location of the hydrant that may be used;
- b) the type of hydrant that may be used;
- c) the dates and time when the hydrant may be used;
- d) the type of backflow prevention device required; and
- e) precautions to be taken in connecting to and using the hydrant.

17.5 A backflow prevention device or an approved air gap must be installed prior to any connection to a hydrant pursuant to a Hydrant Use Permit. A current test report for backflow prevention devices (if applicable) must be available on request.

17.6 No person shall operate any hydrant or use water drawn from any hydrant pursuant to a Hydrant Use Permit, otherwise than in accordance with the terms and conditions of the Hydrant Use Permit.

17.7 At any time the Regional District may cancel or suspend a Hydrant Use Permit issued pursuant to this Bylaw:

- a) if the Regional District considers that the use of the hydrant may result in a risk to the water system; or
- b) if the Hydrant Use Permit holder fails to comply with the provisions of this Bylaw or the terms and conditions of the Hydrant Use Permit.

17.8 Any damage to the hydrant or the water system as a result of hydrant use will be repaired at the applicant's expense.

18 OWNERSHIP OF WATER SYSTEM

18.1 All water pipes, connections, appurtenances, or facilities required to provide water to an Owner's property line shall be owned by the Regional District. This includes, but is not limited to, all works that are located within a highway or a statutory right of way, or lands owned by the utility regardless of whether they were constructed at the expense of the Owner or the Regional District.

18.2 All water meters, either pit or in-home water meters, located within an Owner's property or premises, shall be owned by the Regional District.

19 PRESSURE, SUPPLY, AND QUALITY

19.1 The Regional District does not guarantee a constant pressure, continuous supply of water or direction of water flow, and it reserves the right at any and all times, without notice, to change operating conditions for the purposes of making repairs, extensions, alterations or improvements or for any other reason.

19.2 The Regional District, its Board, officers, agents, or employees shall not incur any liability for damage or other loss caused by changes in water pressure, shutting off water or change in direction of flow or by reason of the water containing sediments, deposits or other foreign matter.

20 LIMITATION OF LIABILITY

20.1 Water is provided on the condition that the Owner makes no claim against the Regional District, its Board or Council, or its officers, agents, and employees acting within the scope of their employment. It is further a condition that the Owner shall make no claim for any indirect, incidental, or consequential damage. Nothing contained in the Bylaw shall be construed to impose any liability on the Regional District to provide water to any person or premises or to provide a continuous supply of water or water of any particular quantity or quality to any person or premises.

20.2 Any supply of water by the Regional District is subject to the following conditions, in addition to other conditions in this Bylaw:

- a) the Regional District is not responsible for the failure of the water supply as a result of any accident or damage to the water system;

- b) the Regional District is not responsible for any excessive water pressure or lack of water pressure;
- c) the Regional District is not responsible for any temporary stoppage of the water supply on account of alterations or repairs to the water system; whether such arises from the negligence of any person employed by the Regional District or another person, or through natural deterioration or obsolescence of the water system or otherwise.

21 INDEMNIFICATION

- 21.1 Water is provided on the condition that the Owner indemnify and save harmless the Regional District, its Board or Council, or its officers, agents, and employees in respect of all claims arising from the provision of the water.

22 RIGHT OF ENTRY

- 22.1 The Regional District Officer is authorized to enter upon any property or premises at any reasonable time for the purpose of inspecting the lands and improvements and all parts of the water system and private service works thereon, and for the purpose of testing, repairing, replacing, maintaining and of doing such work as necessary to ensure the proper functioning of the water system including without limitation all pipes, valves, meters and appurtenances situated on the parcel, and to ensure compliance with, or prevent violation of, the provisions of this Bylaw.
- 22.2 The Owner or occupant shall provide adequate, convenient, and unobstructed access, failing which the property or premises may be considered inaccessible.

23 ORDER TO COMPLY

- 23.1 The Regional District Officer may order an Owner or occupant who contravenes this Bylaw to comply with the Bylaw within a specified time.
- 23.2 Where an Owner does not comply with such an order within the specified time, the Regional District Officer may order the action contained in the order to be performed by Regional District employees, or others, and the cost to the Regional District of so doing may be recovered from the Owner by the Regional District as if the same were a debt due the Regional District. The amount of such cost, when certified by the Regional District Officer, if not before paid, shall be entered by the Regional District's Collector in the Collector's Roll next prepared after the receipt of the certificate and such amount may be recovered with interest at such rate as may be authorized from time to time by the Local Government Act, in like manner as municipal taxes.

24 VIOLATION

- 24.1 Any person who:
- a) violates the provisions of this Bylaw;
 - b) causes or permits any act in contravention or violation of the provisions of this Bylaw;
 - c) neglects or omits Bylaw requirements;
 - d) fails to comply with bylaw orders, directions, or notices; or
 - e) prevents, obstructs or attempts to prevent or obstruct the authorized entry of any

Regional District Officer authorized under this bylaw;

commits an offence against this Bylaw. Each day that a violation is permitted to continue shall constitute a new and distinct offence.

25 PENALTIES

25.1 Any person who violates any provision of this Bylaw may, on summary conviction, be liable to the maximum penalty under the Offence Act, plus the cost of prosecution, for each offence.

25.2 The penalties imposed under this section are a supplement and not a substitute for any other remedy to an infraction of this Bylaw.

26 CITATION

26.1 This Bylaw may be cited for all purposes as the "Regional District of Central Okanagan Water Systems Regulations Bylaw No. 1513, 2023".

27 ENACTMENT AND TRANSITIONAL

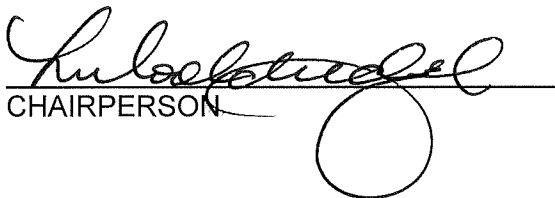

27.1 The "Regional District of Central Okanagan Water systems Fees and Regulations Bylaw No. 1370, 2015", as amended, is hereby repealed.

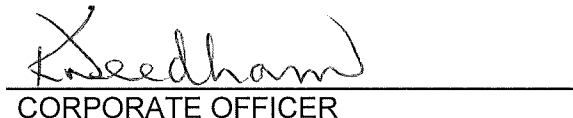

27.2 This Bylaw comes into effect on the date of adoption.

27.3 Any fees which became due and payable under the Regional District of Central Okanagan Water systems Fees and Regulations Bylaw No.1370, 2015, prior to its repeal, are recoverable under this Bylaw.

READ A FIRST, SECOND AND THIRD TIME THIS 12 DAY OF JANUARY 2023

ADOPTED THIS 12 DAY OF JANUARY 2023

CHAIRPERSON

CORPORATE OFFICER

SCHEDULE "A" FEES & CHARGES

1. Application Fees

SCHEDULE "B" HYDRANT USE PERMIT

HYDRANT NO. _____

Name Of Hydrant User _____ Phone No _____
Name Of Contact Person _____ Phone No _____
Purpose For Use _____
Name Of Water System _____
Location Of Hydrant _____
Estimated Volume Required _____
Estimated Duration Required _____
Date Start: _____ Date Finish: _____

OFFICE USE ONLY

Authorized By _____
Date Serviced _____
Additional Terms and Conditions of Permit:

SPECIAL NOTES:

Resale as potable water is prohibited.

A non-refundable application fee of \$100, plus \$50 per day of proposed use, is required upon application.

The permit must be in the **possession of the user** when operating the hydrant.

A gate valve shall be installed on the hydrant to control flow. The operating wheel shall be removed when leaving the hydrant unattended. **Ball valves are not to be used for control.**

The connection shall be removed by the end of each working day, except by written permission.

Approved backflow prevention assemblies or an approved air gap must be used.

A current test report for backflow prevention assemblies (if applicable) must be available on request.

A water meter must be used and water consumption must be recorded daily and reported to the Regional District of Central Okanagan.

The hydrant must be fully open for use.

Only hydrant wrenches are to be used (no pipe wrenches).

Regional District of Central Okanagan reserves the right to restrict or terminate hydrant use.

The applicant acknowledges that any damage to the hydrant or the water main as a result of hydrant use will be repaired at the applicant's expense.

Any connection to any fire hydrant without permitted approval will be subject to penalties authorized by the Regional District of Central Okanagan Water systems Bylaw and the Regional District of Central Okanagan Fire Prevention and Regulations Bylaw.

The following Hold Harmless and Indemnification Clause applies to this permit:

The Hydrant User shall be liable for all loss, costs, damages, and expenses whatsoever incurred or suffered by the Regional District of Central Okanagan, its elected officials, officers, employees and agents (the Indemnitees) including but not limited to damage to or loss of property and loss of use thereof, and injury to or death of a person or persons resulting from or in connection with the performance, purported performance, or non-performance of this Permit, excepting only where such loss, costs, damages and expenses are as a result of the sole negligence of the Indemnitees.

The Hydrant User shall defend, indemnify and hold harmless the Indemnitees from and against all claims, demands, actions, proceedings, and liabilities whatsoever and all costs and expenses incurred in connection therewith and resulting from the performance, purported performance, or non-performance of this Permit, excepting only where such claim, demand, action, proceeding or liability is based on the sole negligence of the Indemnitees.

I HAVE READ AND UNDERSTAND THE ABOVE CONDITIONS.
